

**Ice Update January 11, 2018**

**Hello residents,**

**Thank you for your patience. Our maintenance staff have inspected the areas of concern on the lake ice today and the open holes have healed.**

**They have also been out clearing the ice for your enjoyment.**

**The Green Flag is now up and the lake ice is open for your use:**

- **The lake rinks are in good condition, and they are open for skating.**
- **The lake front residents can clear and use their personal rinks.**
- **The lake is open for ice fishing, and all ice fishing rules apply.**
- **The lake is also open for snow shoeing, cross country skiing and walking.**
- **The path around the perimeter of the lake is open for walking, but is in very rough, un-skatable condition and not open for skating.**

**The maintenance staff will be conditioning the lake path, and other areas as required, to prepare the ice for skating.**

**Please check on Facebook or by contacting the lake office for further updates.**
